ASIRT – Asylum Support and Immigration Resource Team www.asirt.org.uk

ASIRT is a charitable organisation based in Birmingham registered with OISC (Office of Immigration Services Commissioner) to provide advocacy, advice and legal representation to asylum seekers and other undocumented migrants in the West Midlands who would otherwise be unable to access such representation due to their limited financial resources.

Access to legal aid has been severely curtailed for the majority of people subject to immigration control. As a consequence there is precious little access to justice for people without the means to pay for private legal representation, making the work of agencies like ASIRT absolutely crucial.

We assist with the submission of fresh asylum claims and with applications for leave to remain in the UK under Article 3 or Article 8 of the European Convention on Human Rights. We also provide advocacy support to help ensure that individuals and families who would otherwise be destitute are able to obtain the subsistence support to which they are entitled under the Asylum and Immigration Act, the Children Act and the Care Act.

Finally, we work with partner agencies such as Birmingham Community Law Centre to mount strategic litigation challenges on some aspects of immigration legislation.

If you would like to support our work, donations can be made at <https://charities.everyclick.com/purchase?d=D&fid=1119263&cn=ASIRT&cid=730412&ctId=CT10426&cy=GBP&partner=1>

We are also looking to recruit new Trustees, and in particular a Treasurer. For more information, please contact davestamp@asirt.org.uk.

Birch Community Hosting Network www.birchnetwork.org

BIRCH is a small, volunteer led charity working across Birmingham to support vulnerable refugees, asylum seekers and undocumented migrants. We run three projects:

- A weekly 'Meet and Greet Lunch' for families at risk of destitution runs at St Martin's Youth Centre in Highgate, and offers refugee and migrant families a hot meal and play opportunities. Befrienders help with the running of the sessions forming positive relationships with the families by listening, offering empathy and a non-judgemental approach.
- The Family Befriending Project matches vulnerable young refugees aged 16-25 who have come to the UK without their families with volunteer families. Family befrienders offer a regular (weekly or fortnightly) meal within the family home to a young refugee wanting a taste of family life.
- The Hosting Network recruits and supports community hosts who share their homes with an individual experiencing destitution, normally due to difficulties within the asylum process. Offering a spare room to people who would, often, be street homeless otherwise, is a life enriching experience and can be beneficial to everyone involved. Stays are usually from two weeks to a year, depending on the time set by the host. Each placement is carefully supported by an experienced staff member to ensure the happiness of both the guest and

host, and works with the guest to ensure that they are able to move onto more stable accommodation by the end of their placement.

Some are dispersed around the West Midlands & return to meet friends and introduce others to a place of welcome. The atmosphere is friendly, happy and inclusive.
